PRODUCT INFORMATION

MILK PAINT

This genuine, environmentally-safe, non-toxic, zero voc's Milk Paint is available in twenty colors that dry to a beautiful velvet finish. Comes in powder form that mixes with water to make pints, quarts or gallons. Also available as a base (no pigment) for adding your own pigments. Color cards and literature are available upon request, visit our website at www.milkpaint.com for more information.

SAFEPAIN

Our SafePaint milk paint, especially formulated for walls, can be used for many other surfaces as well (both porous and non-porous), including woodwork, furniture and metal. From previously painted surfaces to new wallboard with joint compound, SafePaint is self-priming and provides a flat, consistent finish. Water resistant once cured. Mixes easily at high speeds with a portable kitchen mixer or drill paint paddle. Non-toxic, zero voc's. Available in powder form that mixes with water to make pints, quarts and gallons.

ECO-ORCHARD PAINT

Our newest milk paint formula has been approved by certain organic farming associations for use on tree trunks to avoid sun scald. Available in powder form that mixes with water to make pints, quarts and gallons.

EXTRA BOND

A water-based, V.O.C. free, low odor, non-toxic polymer additive for Milk Paint that greatly improves adhesion to non-porous surfaces including close-grained hardwoods. Comes in pints, quarts and gallons. Keep from freezing. Do not apply below 60° F.

ANTIQUE CRACKLE

A natural gelatin that is brushed on before the final coat of Milk Paint (also works with some other water based paints), to provide an "alligatored" or crackled look. Non-toxic and biodegradable. Freeze/thaw compatible. Flows easily at 70° F, or higher. Store in refrigerator or freezer for longest shelf life. Comes in pints, quarts and gallons.

SAFECOAT ACRIGLAZE MATTE FINISH

A water-based, non-toxic polymer finish for use over Milk Paint to protect against stains, dirt, and abrasion. Matte finish. Also increases washability. Comes in quarts and gallons. Keep from freezing. Do not apply below 60° F or in humid conditions. Note: may not protect against certain kitchen oils.

HOPE'S 100% TUNG OIL

A natural, penetrating low gloss finish for use over Milk Paint or on bare wood. Multiple coats provide a durable water resistant coating. Non-toxic, VOC free, contains no petroleum distillates. Comes in pints, quarts and gallons.

DADDY VAN'S ALL NATURAL BEESWAX FINISH, DECORATIVE WAXES & DISTRESSING DISKS

A furniture "polish" containing pure unrefined beeswax, natural emollients and botanicals. Non-toxic, no petroleum byproducts or solvents. Will help protect a milk painted surface from waterspotting. Available in unscented (100% food safe), with Lavender Essential Oil, and with Lavender and Sweet Orange Oil. In 5 and 32 ounce tins. Decorative waxes in Antique Brown, Shadow Black, Farmhouse White & Cafe Noir, in 2 and 6 ounce tins. Beeswax Distressing Disks help to achieve a distressed, layered look to projects by adding a resist to certain areas before adding a second coat of paint. 3 ounce disks available in unscented (with a natural honey scent), or scented with Lavender Essential Oil or Ginger & Lemongrass Essential Oils.

DADDY VAN'S ALL NATURAL HEMP OIL

A solvent free, zero VOC pure drying oil. Food safe and water resistant finish with multiple coats over milk paint or bare wood. Naturally thin viscosity, matte finish. Available in 8, 16 and 32 ounce bottles.
